EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edwards in order to correct the scope of the independent claim 23—so that the single piece would be '*molded single piece*'--through an examiner's amendment so as to facilitate allowing of the case.

In the 9th line of claim 23 (in page 4), just before 'single piece' please insert molded

Reason for Allowance

Claims 1-15 and 23 are allowed for the following reasons:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Kramer (US 6583934).

Claim 1 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious a single molded piece comprising an integrated first section, second section, third section, and diffraction grating, the first section capable of receiving a WDM beam, the diffraction grating integrally formed on an external surface of the first section and an external surface of the single molded piece, the WDM beam being directed onto an internal surface of the diffraction grating in combination with the

rest of the limitations of the base claim. Claims 2-15 are allowed by virtue of dependency.

Claims 23 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious wherein the means for separating, the means for detecting, and the means for aligning are integrated as a single molded piece component, and the diffraction means is on an external surface of the means for separating and an external surface of the molded single piece component in combination with the rest of the limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
